Opti wash 8000!

The World's most Energy Efficient and Quiet Contouring "Air-knife" Dryer System combined with an optional SPOT FREE RINSE system guarantee environmental efficiency as well as glossy finished vehicles.

Full force high pressure

Kärcher's highly efficient patented power nozzles and the washing process designed specifically for the CHH 8000 guarantee maximum paintwork protection.

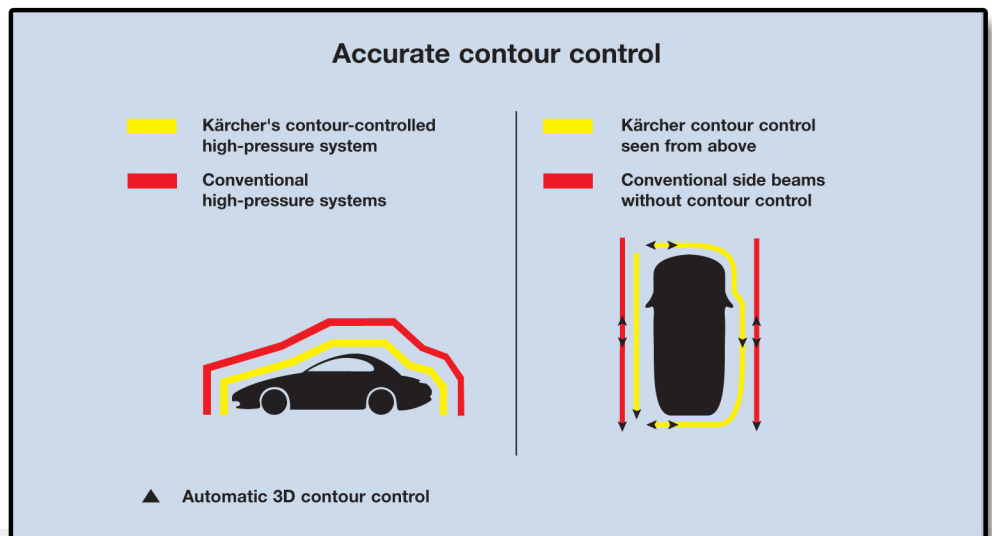

Precision contour control

The electronic contour control ensures optimum nozzle clearances at all times to achieve

the most effective cleaning pressure from the top and sides.

Optical detection system

Operational safety is ensured by a system of optical sensors and safety strips which detect door mirrors, trailer couplings or aerials, for example.

Main Data and Dimensions of Opti Wash:

Washing Height	7' 6" Inches
Washing Width	9' 0" Inches
Washing Length	24' 0" Inches
Recommended Min. Building Height	14' 0" Inches
Recommended Min. Building Width	15' 4" Inches
Recommended Min. Building Length	36' 10" Inches
Connected Load of Machine:	
Water Supply	50 gpm at 80 psi
Compressed Air	90-120 psi, Continuous
Electrical Requirements	208 3 phase, 200 amp
PATENT PENDING
